MEETING PRODUCTIVITY

Console One

Integrated AI Meeting Hub

Connect. Capture. Follow through.

Bring desktop connectivity, audio, recording and AI tools together for in-person meetings, enterprise voice calls and online collaboration.

3
Meeting modes

6
Physical controls

2×4K60
Dual display output

BEFORE

Connect the desk

One USB-C link for displays, power and peripherals. Drive two 4K60 screens.

DURING

Stay in control

Manage calls and recording with physical keys, custom hotkeys and clear LED status.

AFTER

Turn talk into insight

Transcribe, summarize, translate and export in a browser. Choose AI services with BYOK.

BYOK: use enterprise-selected AI services with your own API key. Web UI supports Windows and macOS.
Display, power and AI capabilities depend on the host, configuration and selected services.

Request a demo. Discuss your project.
