WORKSPACE MANAGEMENT

Smart DockNavi

Agentic AI Dock Management System

Make dock management proactive.

Smart Dock, DockNavi, Hermes Agent and Live OSD connect device visibility, policy-based tasks and on-site confirmation.

4 keys. On-site confirmation.

Sense | **Decide** | **Execute** | **Confirm** | **Report**

Spot what matters

Monitor temperature, load, network, firmware and connection status across managed docks.

Manage at scale

Group devices, deploy firmware in batches, set port policies and schedule power.

Fit enterprise IT

Choose app, public cloud or private cloud deployment.

Keep people in control of sensitive actions with Live OSD prompts and physical key confirmation.
Available features and deployment options depend on enterprise policy and configuration.

Request a demo. Discuss your project.
